Opis produktu

HEILUNG - Drif (Digipack CD)

CD in deluxe Digipak with gold foil, spot gloss, and 24-page deluxe booklet.

Since its inception in 2015, enigmatic world music collective HEILUNG has been paving melodic paths to the past with their unique and mystifying sound.

Evading all conventional genre tags and the confines of any specific labels, the group aptly self-describes their sound as "amplified history", emphasizing their ability to connect modern society with the rudiments of humanity's beginnings through music.

HEILUNG once again journeys back in time with its new chapter, 'Drif' however, unlike previous offerings that centered around medieval northern Europe, album number three will explore all great ancient civilizations.

FOR FANS OF WARDRUNA, NEST, IVAR BJØRNSON & EINAR SELVIK'S SKUGGSJA & HUGSJA.

Cover by Kai Uwe Faust & Layout by Christopher Juul.
