Opis produktu

NORDJVEL - Necrogenesis (CD)

Info : Nordjvel was started in the unholy year of 2015 by Doedsadmiral. He had a talk with Widigs (Marduk) and then Nord about this project and decided to start making music together.

Bass player DzeptiCunt (ex-Ragnarok) joined forces late 2015 and has become an important asset to our line-up.

After a quick break in the autumn of 2017, Widigs left the band to focus on Marduk. Valla (Vredehammer, ex-Abbath) joined on guitar and became a permanent member.

During the recording process of the bands second album, Nordjvel parted ways with Nord.

Destructhor (ex-Morbid Angel, Myrkskog) joined as a permanent member together with Dominator (ex-Dark Funeral) during fall 2018.

Re-issue with new artwork and new layout.
