### ONE TAIL, ONE HEAD - Worlds Open, Worlds Collide (Digipack CD)

#### WORLDS OPEN, WORLDS COLLIDE

As said, time draws near. Finally. The music within this album holds so much of what has come to define us as a band, until now chiefly showcased in its live incarnation, ranging from the rabid, unruly primitivism of our early days to the ominous, slightly surreal atmospheres we began to explore later on. There is material here as old as ten years and even more, as well as what would be considered brand new (by us, anyway, Trondheim time applies). "Worlds open, and worlds, they truly collide!" In not too long we will be able to share it with you all.
