PESTLEGION - Sathanas Grand Victoria (12\"/>

Info : With 'Sathanas Grand Victoria' PESTLEGION return with a grim black assault on all what is holy. Their 2022 album destroys all hope for a better future by focusing on the essence of human lifes and efforts, it concentrates on death itself, the final victory of the seducer of mankind. The four German maniacs composed eight songs which lead into a dark and lost existence, surrounded by fear and infernal thunder. PESTLEGION sound scapes are wide and dynamic but primitive and analogue at the same time.

Mixed and mastered by SODOM drummer Toni Merkel and backed up by Tom Angelripper's vocals, PESTLEGION clearly show that they deeply stick in the old school beginning of Black Metal but propel the genre to a new and ghastly highlight, compounding darkness, speed, brutality and atmosphere to a sheer cacophony ... supporting everything which sounds unholy or even dead.
