HEILUNG - Lifa - Heilung Live at Castlefest (Digipack CD)

Digipack CD

Each live appearance of HEILUNG is a spectacular affair, where the lines blur between musical performance, ancient pagan rituals, past, and present.

The Danish band found a fitting name for their opulent stage set and huge production: amplified history. Their viewers use other words such as "amazing, mind-blowing, goose bumps, unforgettable".

As a tribute to the overwhelming demand of their fast-growing host of supporters, HEILUNG released a complete live show under the banner of 'LIFA', which was recorded at Castlefest 2017, since this recording sold out as quickly as the band's self-released debut full-length, 'Ofnir'.

Season of Mist is proud to make it available again on a worldwide scale.

For fans of WARDRUNA, NEST, Ivar Bjørnson & Einar Selvik's SKUGGSJA & HUGSJA.
